VOLUME TWENTY-FIVE, NO. 65

UPLAND, SAN BERNARDINO COUNTY, CALIFORNIA, TUESDAY, APRIL 6, 1920

\$3.50 PER YEAR

ASSISTANT NAMED TO HIGHWAY COM.

COMMISSIONER L. R. LOTHROP REORGANIZES HIS DEPARTMENT

James W. Cole, New Assistant, Will Have Charge of Construction of Roads and Bridges. All Autos to County Garage Now.

James W. Cole was yesterday named assistant highway commissioner by the board of supervisors, and Highway Commissioner L. R. Lothrop at once assigned him to the particular duty of superintendent of construction of roads and bridges.

At the same time Mr. Lothrop created divisions in the highway department in a readjustment to secure better organization.

The personnel of the department heads now is:

L. R. Lothrop, county highway commissioner.

Ruth Hulbert, secretary and office assistant.

D. C. Swartz, superintendent of county garage.

James W. Cole, assistant and superintendent of construction of roads and bridges.

J. A. Mack, superintendent of maintenance of paved highways.

A. L. Furst, machinist, county garage.

J. B. Weist, superintendent of prison camp.

The new arrangement puts a superintendent in charge of road construction, paved highway maintenance, county garage and prison camp.

Mr. Cole, who is appointed assistant by the supervisors, was recommended by Mr. Lothrop. He has had extensive experience as a highway builder, and was a superintendent with the county highway commission both here and in Los Angeles. He did important engineering work in France during the war and received a citation.

An important feature of the readjustment was the order by the supervisors that all county automobiles of all departments use the county garage. Mr. Lothrop filed with the board a statement showing the expense of all automobiles which have been handled at the garage. Several departments have been incurring garage bills and the order went forth that in future all work must be done at the county garage. All supplies will be supplied at the garage.

The supervisors yesterday took up the plan to secure equipment so that the county hospital may on its vegetable and fruit crops grown on the hospital farm and thus reduce the cost of food supplies at the institution.

MICHIGAN GOES TO JOHNSON--PRIMARY

With partial returns from more than half of the counties in the state of Michigan tabulated, United States Senator Hiram W. Johnson had attained a big lead over Maj. Gen. Leonard Wood, for endorsement at the Republican nominee in the presidential preference primary. Figures from 716 precincts out of 2241 in the state gave: Johnson 63,608, Wood 37,269, Governor Lowden of Illinois 30,313, Herbert Hoover 18,377, Pershing 4892, Simpson 326, Poinsett 800.

Herbert Hoover and Governor Lowden of Illinois were engaged in a close race for third place.

A close race developed in the Democratic contest, Hoover holding a very slim margin over Governor Edwards of New Jersey. The figures from 1974 precincts showed: Hoover 6340, Edwards 5869.

In the incomplete returns the fight for third place on the Democratic ticket was between Secretary of the Treasury McAdoo and William J. Bryan. McAdoo had 4573 and Bryan 3561. Palmer was in the rear with 3357.

Johnson Gets Detroit Eighty-nine precincts out of 236 in Wayne county (Detroit) give: Republican—Johnson 12,879, Wood 7785, Lowden 3083, Hoover 2019, Pershing 579, Simpson 318, Poinsett 119.

Ninety-four precincts in Wayne county give: Democratic—Edwards 1576, Hoover 931, McAdoo 797, Palmer 572, Bryan 571.

Wood led in the early returns until the Wayne county vote came in. The first returns from Wayne county sent Johnson ahead, and early this morning figures from 127 out of 336 precincts in the county gave Johnson 19,960, Wood 4731.

A DELIRIOUS EFFUSION By Frances Sweetland

The buds is blooming on the trees,
And also is the flowers;
The birds is singing rag-time tunes,
To pass away the hours.
Oh, where's them clouds that used to roll
Across the wintry sky?
The sun have chased them all away,
How pleasing 'tis to I.
I love the spring, them flowers, those birds,
Them songs I love to hear;
Oh, winter it am dead and gone,
And spring, sweet spring are here.

POST NO. 73 SENDS FRUIT TO SOLDIERS

Joe Jost, chairman of the American Legion Relief Committee of Upland Post No. 73, has received from the following men and sent off this afternoon fourteen and a half boxes of oranges to the sick comrades in Letterman Hospital, San Francisco: J. H. Payne, half box, Upland Citrus.

Wm. Rohrer, one box, Upland Citrus.

Allan Couch, one box, Upland Citrus.

R. T. Nelson, one box, Upland Hts.

E. C. Harwood, one box, Upland Citrus.

T. R. Woodbridge, one box, Old Baldy.

E. W. Paul, one box, Old Baldy.

G. A. Hanson, one box, G. A. Hanson Fruit Co.

A. B. Whitney, one box, Old Baldy.

J. D. Howe, one box, Upland Hts.

R. R. Brownson, one box, Upland Heights.

J. L. Schowalter, one box, Peppers Packing.

American Fruit Growers, one box, Peppers Packing.

Stewart Citrus Ass'n, one box, S. C. A.

William Springer, one box, Upland Citrus.

**PROMINENT DIVINE
RESIGNS PASTORATE**

Coming as a complete surprise to the congregation of the Claremont church whose members had no suspicion of the contemplated announcement, was the reading of the resignation of the acting pastor, Rev. A. B. MacLeod, at the Sunday morning service.

Before commencing his Easter sermon and in the presence of a congregation which taxed the seating capacity of the main floor of the auditorium, Rev. MacLeod read the text of his resignation, stating that he has given the matter much serious consideration and asking to be released from his present position the last of May. He added, also, that reconsideration of his resignation would be out of the question, that his decision is final and irrevocable. He made no statement of his plans for the immediate future and gave no reason for his resignation.

The congregation was bewildered at the announcement of Rev. MacLeod, who since the retirement of Dr. Henry Kingman to the rank of pastor emeritus, has served faithfully and efficiently as acting pastor of the church. It is presumed that action on the resignation will be taken at the mid-week meeting of the church.

**BOY SCOUTS HOLD
REGULAR MEETING**

The Boy Scout meeting took place last night at the Y. M. C. A. building on Third avenue, with a great many members present. After the business was disposed of, a ball game was indulged in by the Wolf Patrol and a picked team from the other patrols present. The result was a score of 9 to 3 in favor of the Wolves. Wrestling, a few games and general fun made the evening pass quickly and the boys were as usual reluctant to go home.

Boris Umar of Alta Loma was the visitor of the evening.

There will be the usual meeting next Monday night and all Scouts should remember the date and be there.

MISSING LETTERS TO INTEREST READERS

**PAGE WILL BE REGULAR
FEATURE OF NEWS FOR
SOME TIME**

Find Missing Letters in Different Ads to Form Words "Upland News" and Be One of Forty Prize Winners.

Continuing from now through the summer months, page seven of the Upland News promises to be an interesting feature, for readers will find there the "News Business Guide."

Along with the other interesting details of the page will be the missing letter contest and as a reward for the efforts of News readers the first forty giving the correct answer will be awarded a prize in the nature of sheet music by popular composers.

In this issue there are several letters missing from the advertisements and when placed together will spell the words "Upland News."

Your answer must be mailed to the News Guide Contest Manager, and the awards will be printed in the next issue of the News.

**PRICE OF DAILIES
TO GO UP MAY 1ST**

New prices for Los Angeles newspapers to be put into effect May 1, were fixed at a joint meeting of the Los Angeles Publishers Association and the associated dailies of Southern California at a meeting held yesterday.

Beginning on that date, morning papers will sell for \$1.05 a month, delivered by carrier, and the single price on streets, trains, news stands and hotels will be 5 cents for the daily and 10 cents for Sunday issues.

Two evening papers will sell for 3 cents a single copy or 85 cents a month delivered.

A third evening paper will sell for 2 cents a copy or 45 cents a month, delivered.

The present price of morning papers on the streets is 3 cents and on trains, stands and in hotels, 5 cents, and 10 cents for Sunday issues. The monthly rate to be 85 cents. The three evening papers sell for 2 cents a copy and 45 cents a month. The papers which retain these rates adopted them last week, the former price being 1 cent a copy and 30 cents a month.

**"DESERT GOLD" AT
COLONIAL THEATRE**

"Desert Gold," Benjamin B. Hampton and Eltinge F. Warner's life picture of the Zane Grey novel that has thrilled millions of readers, is announced by W. W. Hodgkinson Corporation for presentation at the Colonial Theatre, Wednesday, Thursday, and Friday.

In a furious storm on the desert Jonas Warren encounters the man he has sworn to kill—Robert Burton, whom he charges with running off with his (Warren's) daughter many years ago. Burton produces a marriage certificate and pacifies the enraged Warren. They travel together in search of gold, and after finding both fall victims to a terrible sandstorm, and before the end write his will on the back of the certificate leaving their claim to Nell Warren's child.

Events turn to Casitas, where Capt. George Thorne is hiding his betrothed, Mercedes Castaneda, from Rojas, chief of a desperate band of outlaws. Aid comes to the lovers in the person of Dick Gale, who starts a row with Rojas and in the excitement Thorne and Mercedes get away, being assisted by Ladd and Lash, cowboy friends of Gale. Thorne goes back to his army post, leaving Mercedes in the care of Dick and the two cowboys. They journey to the Belding ranch, where Gale obtains employment as a rider. He meets and falls in love with Nell Burton, foster-daughter of the rancher. Learning that Mercedes is at Belding's place, Rojas hurries there to capture her. With the rancher's aid, the party manages to elude Rojas' guards and strikes out on the road to Yuma headed by Yaqul, an Indian who owes his life to Gale.

After a desperate battle in which all of the outlaws are killed with the exception of Rojas, Yaqul turns to find Rojas attacking Mercedes. Rushing to her rescue, the Indian, after a thrilling fight, succeeds in throwing Rojas over the cliff.

WOMAN KILLED IN CRASH WITH TRAIN

**WIFE OF AZUSA RANCHER
MEETS DEATH ON S. P.
TRACKS SUNDAY**

Drive on Tracks in Front of Oncoming Train and Stalls Engine. All Jump to Safety Except Mrs. Adair.

Mrs. Ida Adair, the wife of W. H. Adair, an Azusa rancher, was instantly killed when their car was struck by a Southern Pacific train at the crossing of Etiwanda avenue about 10:30 Sunday morning.

With two friends who were in the rear seat of the car, the party was out for an Easter day drive, and had turned south from the Foothill boulevard at Etiwanda avenue, and were driving toward Riverside, when they came to the Southern Pacific's main line. A train was approaching, but either Adair did not see it, or thought he had time to cross, probably the former. At any rate he killed his engine as the car was exactly on the crossing, with the train bearing down on them.

Adair called to everybody to leap for their lives and himself and the two people in the rear seat did so, and escaped, but Mrs. Adair was evidently so frightened that she could not move, and an instant later the train struck the automobile, completely wrecking it and killing Mrs. Adair. Her body was dreadfully crushed and mangled.

A passing car picked up the wrecked party and the body of the dead woman and brought them to Colton. The body was prepared for burial at Knipsnyder's, and after the inquest at 10 o'clock yesterday, was shipped to Bridgeport, Mono county, for interment.

**ANNUAL MEETING
OF PRESBYTERIANS**

The annual meeting of the First Presbyterian church will be held at the church tomorrow evening at which officials of the church will make their annual reports and all business pertaining to the coming year's work will be transacted.

The Presbyterian church holds a unique position among the churches of Southern California, the passing of the collection plate at services having been recently eliminated.

The church is out of debt and has a balance of a substantial sum in the treasury. The new plan of operation was adopted at a church meeting held several months ago, and Pastor R. C. Stone finds he can accomplish much more in church work with the financial conduct of the church assured.

**FAMOUS VIOLINIST
TO GIVE RECITAL**

Louis Persinger, hailed as one of the most genuinely gifted and representative of contemporary artists, and said to represent all that is lofty and sincere in the art of violin playing, is to be heard in recital next Saturday evening, April 10, at Bridgeport auditorium, under auspices of the Pomona College Music and Lecture Course.

Persinger's early musical studies were begun in Leipzig, where he studied with Hans Becker, and his extraordinary promise was recognized at that time by no less a person than Arthur Nikisch, who spoke of him as one of the most talented pupils the Leipzig Conservatory had ever had. Persinger's growing European reputation gradually caused his name to become familiar on this side of the Atlantic, resulting in his first extended American tour. His immediate success as a soloist with such organizations as the New York Philharmonic, Philadelphia Orchestra, Cincinnati Orchestra and others and in recitals throughout the country served to place the young violinist among the elect in American public opinion, being heralded by many critics as the foremost of American violinists.

The program to be given by Louis Persinger on the occasion of his appearance here this week will include numbers from the works of Handel, Bach, Wieniawski, Schibert, Mozart and a group of modern composers.

THIRTY-SEVEN ACRES OF ORCHARD SOLD

**REPORTED—CONSIDERATION
SALE OF PROPERTY
IS \$58,000.**

President of Pioneer Paper Company Sells to Mr. Hart of Pasadena Who Will Likely Make Upland His Country Home.

An important deal put through recently was the sale of thirty-seven acres of citrus property on Wilson avenue and Eighteenth street belonging to Willis Hunt, of Los Angeles, president of the Pioneer Paper Company, of that city, to Mr. Hart of Pasadena, the reported consideration being \$58,000. There is a large house on the property with lawn and garden, making an attractive residence, with a grand view of the valley and mountains combined. The new owner has not stated his plans but it is thought he will make the place his country home, and spend part of each year there.

**CITY ELECTION NEXT
MONDAY, APRIL 12TH**

Present indications are that Upland's city election on Monday will be a very quiet affair and that the vote will be decidedly light. For a time it looked as though the contest between Wm. Springer and W. B. Cavers for a seat on the city council would be a real issue, but if discussion on the street indicates anything the voters of the city have decided which they will vote for and will go quietly to the polls on Monday next, cast their vote and return to their usual duties.

Both Mr. Springer and Mr. Cavers have many friends in the city, each man's friend firm in the opinion that their man will be elected.

Other candidates to be voted on and who are not opposed are F. C. Huntington for council from the N. Buell district; Frank K. Nichols for city clerk, and O. B. Stevens for city treasurer.

**ORIENT SEEKING THE
STATE FRUIT CROP**

The Orient's millions have developed a sweet tooth, turning to the fruit products of California for gratification, and as a result it will eventually require the output of every available acre of this state to supply the demand from the Far East, according to State Senator C. B. Bills of Sacramento.

Senator Bills went to the Orient five months ago as a special representative of the canned and dried fruit growers of the state and his official report indicates that the reserve demand from China, Japan, the Philippines, Far East and Siberia will be for the future production.

He advocates the immediate establishment of a line of steamers possessing a fair amount of refrigerating space for the shipment of our fresh fruits and the establishment of direct representation for the sale of dried fruits. He added:

"There is no question about it. The Orient has developed the sweet tooth. The Far East wants our fruits and especially at this time the dried varieties. You find raisins on every hotel table at nearly every meal just as we have at home around Thanksgiving day. This is a new raisin business and has resulted from the work of growers' special representatives in the last three years.

May Claim Entire Crop

"The Orient alone will within twenty years take all of the raisins California can produce, so there is no danger that this crop will ever suffer from overproduction.

"The fruit in the Orient is not what it should be, excepting the slight amounts brought in on the present refrigerating space. This is purchased eagerly at fabulous prices and it is certain that with the right methods, a big demand can be established. I will present my data to the growers and special appeal will be made to secure the shipping facilities which mean everything to California and her people."

After April 16th the Arrowhead Springs resort will no longer be open to the public, as the government will then take it over as a home for wounded soldiers, which will leave only about 975 other resorts for visitors in Southern California.

THESE SUMMER DAYS—

More man, bearing in mind Milady's wearing apparel during the winter months, approaches the summer season with fear and trembling, for, verily, 'twill be brave men who will gaze upon fair lady. "None but the brave deserve the fair."

MISMATED ONES ARE GIVEN SEPARATION

The following divorce decrees were granted in the superior court yesterday:

Flora Merriettes Cline from Victor E. Cline. Desertion and cruelty was charged. Attorney Joseph F. Seymour, Jr., of El Centro, represented the plaintiff.

Helen Garner Willetts from Harold Palmer Willetts. Cruelty was charged. Attorney Grant Holcomb represented the plaintiff.

Lorena Horton from George Horton. Desertion. Attorneys Leonard, Surr and Hellyer represented the plaintiff.

Della M. Burge from Allen Burge. Cruelty was charged. Attorney Lester G. King represented the plaintiff.

Francesca Lua from Antonio Luna. Cruelty was charged. Attorney A. D. Trujillo represented Luna.

Lila Frazier was denied a divorce from Allen O. Frazier.

The case of Carmine S. Tijeda against Manuel C. Tijeda was passed.

When Willard B. Clark, now of Santa Monica, acknowledged on the witness stand that he had made \$10,000 during the past year and had not paid his wife's attorney for many long months, Judge J. W. Curtis yesterday ordered him to jail for 24 hours for contempt of court, but later suspended the order, provided he would immediately pay his divorced wife \$150 on account and \$75 a month until he had paid \$488.50 due her, in addition to \$25 a month. Clark has married again since his divorce and his wife was waiting for him. Clark explained that he had not made the \$10,000 in cash, but in property.

**CAMP FIRE GIRLS
IN CONSTANTINOPLE**

A letter has just been received at the National Headquarters of the Camp Fire Girls, 31 East Seventeenth street, New York, from the daughter of the American Consul General at Constantinople, telling of a new group of Camp Fire Girls which she is forming. In her group there are two Turkish girls, two Greek, one Armenian, two Bulgarian, and one Albanian. All of them attend Constantinople College.

Miss Florence Hughes, a member of the board of directors of Camp Fire Girls, and Miss Harriet Dow, a pioneer Camp Fire Guardian, sail soon for Constantinople. They are planning to visit this newest foreign Camp Fire group and deliver a message to the girls there from the 100,000 Camp Fire Girls in the United States.

This is the seventeenth foreign country in which there are Camp Fire Girls. There are groups in every state, in Alaska, in Canada, England, and on every continent.

How Camp Fire Americanized Viasta

The program of the Camp Fire Girls is especially adapted for Americanization work among the foreign-born girls. By working for Camp Fire honors, she learns American traditions and customs, unconsciously. Thousands of groups of Camp Fire Girls all over the country are taking girls of foreign birth into their number. The following letter from a little Bohemian Camp Fire Girl speaks for itself:

"The greatest of many things which Camp Fire has accomplished for me was to Americanize me.

"I came from Bohemia at the age of nine, having America because it was so strange and new. I was amazed at the strangeness of it all and made up my mind to hate it, and hate it I did, till I became a Camp Fire Girl at the age of thirteen. I was persuaded to join a group of Camp Fire Girls which was organized in one of the many settlement houses in Chicago. In the Camp Fire group I was made to see the beauty of America and its people, and it was this that makes me love America and its people so that I would dread the idea of going back to Bohemia to live. Not that I love it less; no, but that I love America, and all that is in it, more.

"Camp Fire taught me to look upon life through the eyes of America, and to look up it with the same view as my own Camp Fire Guardian, whom I regard as a specimen of perfect American womanhood."

CHAFFEY ATHLETES READY FOR MEET

**HAVE HIGH HOPES OF GOOD
PLACE SPITE OF POOR
SHOWING IN C. B.**

Corey Holds Record for High Jump and Chaffey Will Also Send Many Other Promising Men to Contest.

Chaffey Union High School, despite being able to finish no better than third in the Citrus Belt League annual track and field meet, figures to finish near the top in the annual Southern California Interscholastic meet at Occidental College next Saturday.

Coach Fred Clapp today announced the following Chaffey entries:

In Track Events

Half mile—Reeder, Stafford.

100-yard dash—Harper, Reeder, Green, Guthrie.

120-yard high hurdles—Corey.

Quarter mile—Reeder, Evans.

220-yard dash—Harper, Reeder.

1 mile—run—Stafford, Hill.

Relay team—Harper, Corey, Reeder, Green.

In Field Events

Pole vault—Jacobs, Piety.

High jump—Corey, Cour, Thayer, Springer.

Discus—Corey, Evans, Bailey.

Broad jump—Harper, Corey, Thayer, Williams, Lucas.

Chaffey High figures to take first place in the high jump and pole vault and points in several other events.

Corey, with his mark of better than six feet, is several inches better than other high school jumpers in the Southland. Jacobs has shown more ability in the pole vault than other Southland vaulters. Harper is doing better in the broad jump than the best other high schools have shown at previous leaps. Reeder is also expected to add several points.

**DESERT LAND TAX GETS COURT
TEST**

A court test of the right of the county to assess the possessory interest of homesteaders in government property on which they have filed is apparently looming. The supervisors yesterday rejected the request.

E. J. Gilbert, county assessor, has advised the board there are supreme court decisions setting forth the right of counties to assess the possessory interest of any one in government land.

**LONE HILL CLUB IN
CONTEST SUNDAY**

The Lone Hill Gun Club has planned that next Sunday, April 11th, will be Upland Orange Day at the Los Angeles Gun Club grounds, when a gala day of fun, festivity, and sport will be the order of the day.

Hundreds and hundreds of the golden fruit will be given away by Upland to the shooters and their friends. A regular picnic will be held under the giant eucalyptus trees, and every available motor car has been commandeered to take Upland folks to the grounds.

Fifteen members under Captain Perry Long will go from here and a gay time is looked forward to. And then the prizes—listen: there will be a twelve-piece set of silverware given to the lady guessing the nearest number of targets thrown in the 25 and 50 target program. There are also ten sterling silver prizes up for competition and a solid gold trophy for the highest score made by a visitor.

The Los Angeles Gun Club grounds which are open every day in the year are situated at 4101 Alhambra avenue. The Sunday program for the next month is as follows:

Sunday, April 18th—"HI" Everding Trophy Shoot; 50 targets club event. Prize prizes for high scores.

Sunday, April 25th—Mrs. Carl Schilling Day. Mrs. Schilling and Mrs. C. E. Groat will captain the teams and a military wrist watch will be presented to the lady captain of the winning team.

Sunday, May 2nd—H. B. Everding Day. Those who have made sixteen points of the Everding watch will be entitled to shoot off at 100 targets, 16 yards; added target handicap for final possession of the same.

Sunday, May 9th—M. A. Leach Trophy Shoot—25 targets, 16 yards, added target handicap. The same conditions that govern the H. B. Everding Trophy shoot will apply to this one.

A PLAIN TALK TO CITRUS GROWERS

When studying our problems of orchard fertilization we find many and varied opinions as to the proper amounts of the different fertilizers to apply, the method of application, etc. We have yet to find the rancher who doubts in the least the absolute certain value of a good application of No. 1 Barnyard Manure. It can be applied any time of the year with a certain assurance that you will get value received.

A good time to cover your grove is just before you do your spring work, so as to work the manure well into the ground. You will find many of the most successful ranchers doing this at this time, it being an exceptional spring for thoroughly working the soil and getting the manure well mixed with it.

We take pride in selling only the best manures and in making prompt deliveries.

TUESDAY, APRIL 6, 1920

DON'T PAMPER YOUR BOY

The boy has been a problem to his elders ever since the first sun-tanned and hickory-tanned son of man can barefoot through the primeval wilderness. And in nearly every period of history fathers have used much the same means of rearing their young. Men have always experienced sympathy akin to pity for the boy "born with a silver spoon in his mouth." It has been part and parcel of existence that lads who have had to rough it and fight their way have made the stronger, more self-reliant and companionable men. The Spartans took lads of seven from their mothers, made them wear the same scanty clothing summer and winter, sleep on the bare ground and train ceaselessly in the hard art of war. The Puritans trained their boys hourly by the Book. The fathers of today were reared by rule—and rod.

One cannot but look askance, then, at the prevailing custom of pampering the boy. Perhaps it is the price of prosperity that on every hand there are evidences that the lads of today are being humored more than those of any other generation of Americans. Everywhere chaps of 10 and 12 and the early teens are spending money with an abandon that would have amazed those of a decade ago. And the worst of it is that in most cases the money has been handed out by indulgent parents to youngsters who know all too well that there is more where it came from.

Many fathers who look back in pleasant reminiscence to their boyhood, when five cents was worth working an hour to earn and a quarter was a veritable fortune, will regret the present fashion. They will remember the days when there were no movies, no bicycles, no gymnasiums, no clubs, nor any of the other amusements that have become a part of everyday experience; and they will remember that without these alluring devices they had rollicking times together. They cannot but look with a bit of pity upon the lot of children who, in this highly organized age, often are miserable without the stimulus of expensive games and totally lack within themselves the power of entertainment and interest.

Myriad organizations are at work to reclaim so-called bad boys. But in the meantime the good boys are literally going to the devil in droves because they are being humored and pampered by indulgent parents. The father, who in his school days wore patches on his pants—and sometimes patches on the patches—would not think of permitting William to be seen among his playmates with a torn stocking; he would fear that it would reflect upon his ability to keep William clothed.

So William rapidly becomes Willie. And the father who worked enthusiastically for a bit of spending money, will not for a minute permit "his boy" to work for wages; he's quite capable of earning all his family needs himself, thank you! So he gives the chappie an abundant allowance without ever a thought of the near certainty that the lad will grow up selfish and a snob.

If democracy is to continue as the dominant inspiration of the nation, it must be taught in future generations from boyhood, and not merely by precept and example, but by experience. The boys who are permitted to rough it with his fellows will never lose his innate democracy. The boy who is taught the worth of money by being encouraged to work for it and permitted to spend it or save it at his discretion will never be a spendthrift or an aristocrat. But the boy who is being pampered—poor chap—has a hard row ahead when he goes from under the parental roof. Making it easy for the lad is making it hard for him.—San Bernardino Sun.

LIBRARIES INSTEAD OF SALOONS

Cupboards and shelves behind the glittering mahogany bars, which once housed rows of variegated bottles, now shelter rows of books of all sorts. The former saloon has become in many instances, the corner library of the neighborhood.

In many places, former saloons have been turned into stores in which have been installed collections of the best sort of reading matter as branches of the main public library or, as in communities which have lacked library service, adjuncts to the library of the nearest city.

This extension of service is encouraged by the American Library Association in its "Books for Everybody" movement, now under way throughout the nation and it has met general approval. The Enlarged Program of the association purposes to spread the doctrine of self-education through libraries by opening avenues of opportunity heretofore closed to a large percentage of the people. It is estimated that 60,000,000 persons in the United States to-day have inadequate library service and to remedy this, with the aid of other library agencies, the association aims to bring the reading matter within the grasp of every man, woman, and child in the country.

Those in charge of the collections established in these places which were once saloons report a large demand for books, both fiction and on technical subjects. Persons who have never had much acquaintance with books are becoming regular patrons and the circulation is constantly growing. Promotion of this phase of spreading American ideals through self-education is one of the principal

aims of the American Library Association. To carry on the work, librarians, library trustees, and friends of libraries are obtaining a fund of \$2,000,000 but no intensive drive is being conducted.

Following are books to circulate Monday from the County Free Library and the City Library:

Adult
Davis, History of France from the earliest times.
Dewey, National problems (American ser.)
Hart, Formation of the union, 1750-1829.
Cantacuzene, Revolutionary days.
Sparks, National development (American ser.)
Who's who in America, 1916-1917.
Wilson, Division and reunion, 1829-1909.
Internat'l Correspondence Schools.
Masonry.

Spanish Books
Blasco Ibanez, La barraca.

WE MUST STAND BY THE CITY COUNCIL

Regardless of who is named as city councilmen at the election next Monday, there is one thing which the voters of this city must do at that election, and that is to carry with a substantial vote the proposition which allows the council to assess \$1.25 on every one hundred dollars valuation. The law regulating the conduct of Sixth Class cities allows but \$1.00 to be assessed, and the council must have the extra 25c in order to carry on city business satisfactorily.

The voters of this city, through majority vote, have asked these men to serve on the council, and during the past three years members of the council have had a task before them which has been difficult to perform because of the steady rise in the cost of operation. As far as this newspaper is concerned, the mere announcement by the council that more funds are necessary is sufficient argument for us to support the increase in city taxes, and the voters of the city, having asked these men to serve on the city council, can not in justice to themselves fail to heed the request, for if the voters, at this time, fail to stand steadfastly behind the council and assist them in conduct of city business, they have failed as citizens of the community.

Every one knows of the rising cost of all commodities; increase in salaries of city employees has been necessary; increase after increase in cost of operation has been constantly before the council; in fact, everything increased but the city's income, and the result today is that if the citizens of this town want the city to forge ahead and to operate on a progressive line, a larger amount of money must be placed at the disposal of the board of trustees.

There have been in the past, and there will be in the future, many issues on which the citizens of Upland will not agree, but there is one proposition on which all of us agree, and that is that this city must progress, and unless we progress, we are bound to gradually slip backward.

Due largely to an unprecedented volume of business, Upland was never in a more prosperous condition financially than she is today, yet our housing capacity is crowded and few steps toward greater things are being taken.

Support of the city council at this time is of paramount importance, for when we handicap the council through a lack of financial support, we handicap ourselves and retard the further development of the city, and the support of the proposition which appears on the ballot at next Monday's election means a step forward and a greater Upland.

The Shipping Season

Is a busy one for the rancher. The sixty minutes to his hour are turned to splendid purpose.

This is one of the times when our banking-by-mail service is particularly appreciated. It enables the industrious rancher to remain on the job and at the same time care for his banking business safely, swiftly and surely.

Your request for information will bring prompt, complete response.

Let our services save you time, and money.

* Etiwanda *

Happenings Here and There as Gathered by a News Special Representative in and About Etiwanda

At a pretty wedding, Tuesday morning at 10:30 Miss Louella McClean, eldest daughter of Mr. and Mrs. William McClean, became the bride of Mr. Clyde Webb of Los Angeles. Rev. C. W. Greenlee performed the ceremony which united the young people. Mr. and Mrs. Webb left for Catalina Tuesday where they will be for a short time before making their home in Los Angeles. Mr. Webb is employed as a motorman on the Pacific Electric lines, is a very pleasing young man who makes friends readily. Miss McClean has been a resident of Etiwanda for more than seven years, and counts the entire community among her friends. The best wishes of every one will follow the young people. Mr. and Mrs. Henry McClean of Eagle Rock, Miss McClean and members of the family were present.

Lloyd Martindale, Jr., arrived at the San Antonio Hospital in Upland a few days ago to gladden Mr. and Mrs. Lloyd Martindale's daughters.

Mr. Harry Burbank, who recently returned from over seas, has just received the appointment of forest ranger from the government. The Burbank home on Highland avenue will be made a ranger station and Mr. Burbank will have charge of the district west from Cucamonga and extending to the San Bernardino Flats.

Mrs. M. A. Orchard will long remember her birthday of 1920 because of the two pleasant birthday surprises planned and carried out for her by her daughter, Miss Amy Orchard. In the afternoon Mrs. Capt. Scott, Mrs. Summerville and Mrs. John Orchard came in and spent a happy afternoon with Mrs. Orchard. St. Patrick Day color was carried out in the decorations and chocolate and cake were served. In the evening Mrs. Orchard was delighted at having all of her children and grandchildren come in time for dinner. A sumptuous dinner of chicken, birthday cake and many other good things was eaten. Shamrocks decorated the beautiful cake. John Orchard and family of Etiwanda were present, with Mr. and Mrs. James Willis and daughter Erma of Lamanda Park, Mr. and Mrs. Wm. Willis, William Jr., and Miss Edna of Lankeshim, Mr. and Mrs. Martin Bass and daughter Marie of San Pedro, Miss Margaret Willis and Mr. Edward Heath of Los Angeles and Miss Grace Bleam of Pasadena.

Mr. and Mrs. James McNurlin were host and hostess at a dance party Sunday to guests from Long Beach, Mr. Van Arman, Sr. and Mrs. James Van Arman, who are visiting from Chicago, Miss Minnie Dolan, a visitor at Long Beach from Clinton, Iowa, and Mr. and Mrs. Fred Howard.

About forty-five of the men of the community turned out for the Annual Men's banquet which was held at the church on Friday evening. The speakers were from Pomona College, Rev. Hard, director of Religious Work for the College, and Prof. Marriot, librarian, being the men who were sent over for the occasion. Program and supper were both excellent. The supper consisted of beef stew served with hot biscuits, lima beans, cabbage salad, peaches with whipped cream, cake and coffee. Billy Hipard, Ned Frances, Frank Cour, Ralph Price and Curtis Smith waited on tables. A charge of 50 cents a plate was made for the supper, the money going to the Ladies' Aid treasury.

Miss Bartow of the intermediate grades was ill for two days last week. Miss Ruth Brownless acted as substitute teacher.

Mr. T. Ingvaldsen is quite ill with heart trouble and other complications at his home on South Etiwanda avenue.

Mr. Kenneth Depew who is attending college at San Luis Obispo is spending his Easter vacation with Mr. and Mrs. Herbert Price. Mr. Depew is formerly of Dinuba, the old home of Mrs. Price.

Mr. and Mrs. D. W. Layne moved to Los Angeles a few days ago where Mr. Layne's new duties call him. Mr. and Mrs. Herbert Price will occupy the Jones cottage in which the Laynes have lived for the past several months.

Mrs. Will Pearson and daughter, Phyllis Jean, returned Saturday from San Antonio Hospital.

An election for member of school board last week resulted in the election of Mr. John Frost in place of Mr. Fred Koch. The board now consists of Messrs. O. H. Price, John Scott and John Frost. Mr. Koch has been an excellent member of the board and no one doubts but what Mr. Frost will be as faithful in the discharge of his duties.

Mr. and Mrs. Emmanuel Smith visited the colony Thursday, calling on old friends. Mr. Smith had the misfortune to dislocate his third vertebra recently while cranking another man's Ford car as an act of kindness, and while he has had it set finds that it repeatedly slips out of place and has proved very annoying, to put it mildly.

Mrs. Mamie Cour entertained her

Sunday School class Friday evening at a very pleasant party. Gertrude Greenlee, Evelyn Koch, Dorothy Spence, Alice Bacon, Irene Scott, Stella Dillard and outside the class, Dorothy and Ruth Brownless and Bessie Troyer were present. Marguerites, macaroons, candy and punch were served.

A bunch of the high school boys had a bacon fry at Cedar Camp on Saturday, spending the day playing in the snow and having cold feet just like the boys in the Eastern states do. Cedar Camp, which is a good long walk up West Canyon, makes an excellent winter playground just about the right distance from Etiwanda to make a good trip for the boys. They are planning on going up at some better season and erecting a small cabin there.

Mr. Chas. Frye of Cucamonga has been visiting Mr. and Mrs. Henry Allen for a few days.

Mr. and Mrs. E. S. Bates and daughter Dorothy, Mrs. Gertrude McDowell, and Mr. James Ballantyne were guests at the home of Rev. and Mrs. C. W. Greenlee Sunday, coming out from Los Angeles to spend the day.

Mr. Harry Burbank and Miss Helen on Sunday entertained Mr. Gallocock of Ontario. Miss Laycock talker of Ontario. Miss Laycock, talked at the church Sunday evening about the work in China and Mr. Galloway sang for the same service.

The members of the Intermediate Christian Endeavor will hold a basket supper at the church on Friday evening for members only. A pleasant evening has been arranged for by the committee in charge.

Mercedes Frost attended school the last few days only by the aid of a crutch, having dislocated her ankle while practicing a folk dance at school on Wednesday of last week. Ruth Brownless and Dorothy Smith left Thursday morning for Long Beach to visit their friend Miss Ruth Wood. They will return Sunday.

Miss Vera MacLaren and Mr. Wesley Cole attended a dance given on Monday evening at the home of Curtis Smith. The younger set of Etiwanda were invited and a number attended.

Mrs. Eva R. Fisher and daughter Joy and Mr. and Mrs. J. G. Thompson were dinner guests Sunday at the home of Mr. and Mrs. J. C. Thompson of Upland.

A BRAND NEW BUNCO GAME IS WORKED

A brand new bunco game on the American Railway Express Company has come to light in the last few days in San Bernardino, and secret service men in the employ of the

passed by the name of Charles Tindrell and who is known to have secured several hundred dollars in San Bernardino and neighboring cities and may have secured thousands of dollars by the same plan as the "returns" are not as yet all in.

It is worked thus: A few weeks ago some one stole a pad of C. O. D. orders from the express at El Monte. The same day a stranger, who gave the name of Charles Tindrell, purchased at the Puente office a block of 10 traveler's checks of \$10 each.

Tindrell then proceeded to reap the harvest. He would call at a bank and present one of the \$10 traveler's checks. These are self-identifying. When he got the cash on that he would also present an express C. O. D. order for \$100, and as his identification had been established by the traveler's check, the bank did not hesitate to pay the C. O. D. order. He is known to have cashed several of these orders on San Bernardino and Riverside banks and may have passed on to other cities and worked the same graft.

As is the custom, the banks forwarded the checks and C. O. D. orders to New York where they were cashed at the general office of the express company, being clever forgers. So the banks are not the losers, at least at this stage of the game.

It is a brand new stunt and it is believed that it is being worked by some former employee of the express company who is familiar with the methods of handling the C. O. D. orders.

Automobile thefts in the United States last year amounted to over \$30,000,000. One in every 16 cars in large cities was stolen.

Youthful automobile thieves in Tulsa, Okla., recently were sentenced from five to 20 years by Judge Redmond S. Cole.

LAMENT PASSING OF RUSSET

New England Journal Voices Regret That Famous Apple is Becoming Increasingly Scarce.

The russet apple seems to be in a fair way to extinction. It used to be the commonest of our New England apples, but it is seldom seen nowadays. In Rhode Island the principal varieties are the Baldwin and greening—both fine apples, easy to sell and easy to "keep," fine of color and flavor. But there is room for the russet, too, and it would be a great pity if it should continue to be neglected by so many growers.

There is no other apple that has just the russet tang. It somehow embodies the pungent quality of New England life—its spice, its juice and its humor. It is not so showy an apple as some of its crimson, green and yellow competitors, and yet there is nothing handsomer in the apple kingdom after all than a ripe russet, brown and yellow commingling on its smooth surface, together with a faint blush of red.

Perhaps there are localities where the russet flourishes as of old, but it is out of fashion in this neighborhood. Let its friends arise in its behalf, and see that it does not wholly disappear. Why not a Russet society, systematically bent on its preservation? There have been organized movements for less worthy causes.

Apple lovers with only small tracts of ground might at least pledge themselves to set out one russet tree. A bearing apple tree is as good as money in the bank.—Providence Journal.

SAVAGE TRIBE ON TIBURON

"White Cannibals" Said to Inhabit Pacific Island Believed to Be Rich in Pitchblende.

Tiburon Island, in the Pacific, four miles off the Mexican coast, is inhabited by a tribe of "white cannibals" who are said to be descendants of the Dutch, Swedish and German prisoners who escaped from Mexican prisons several centuries ago. Yapon Indians, who live on the mainland, call Tiburon the "Island of Death," for the reason that any person who lands on it is shot by poisoned darts and then eaten by natives, says an exchange.

In addition to poisoned arrows used by the natives the cannibals also use an ancient blunderbuss in attacking the victims. They are supposed to number from 500 to 2,000 persons. Of 16 persons known to have visited the island in the last few years, in parties of two and three, only nine are said to have returned alive, the others falling victims of the flaxen-haired, blue-eyed "white Indians," as the Mexican people call them.

Tiburon is said to have rich deposits of pitchblende, from which radium is extracted.

Catfish Made to Change Names.

Some catfish have been known around in the mud of the rivers to the north of Rio Janeiro for 31 years without knowing their right name. They supposed their name was "Steindachneria," under which they had been baptized by Carl H. Eigenmann and Ross Smith, Eigenmann in 1888. But George Smith has given this name to some other fish belonging to the aristocratic gadoid family of Macrurids. Confusion and correspondence ensued until Prof. David Starr Jordan insisted that the catfish change their names. Therefore their sponsors have rebaptized them "Steindachneria," and the catfish can now nose around in the mud of the Rio Jequitinhonha, the Rio Doce and the Rio Parahyba without fearing that the piscatorial mail intended for them may get carried out to sea and delivered to the Macrurids.

Not Allowed to Abdicate.

A Russian refugee, widow of a nobleman who was also an engineer, living in California and translating into English some of her contributions to Russian magazines, tells this story as illustrating the unpreparedness of Russian peasants for self-government: A soviet representative was addressing a large gathering of peasants in a certain district. After a long speech in which he told them the government was overthrown, the czar was dead and they were free, he sat down. Then the leader of the peasants arose and solemnly announced they would sing "God Save the Czar!"

Paris May Tax Visitors.

The Paris municipal council, at its closing meeting of the old year, voted a resolution in favor of the capital being officially "closed" as a watering place. The object of the motion is to enable the city to collect a small poll tax on visitors in order to swell the municipal revenues, as is already done in other watering places. While agreeing that such a tax probably would bring in a good round sum, the Figaro criticizes the proposal as hardly in keeping with the city's traditions.

Fly That Is Farmer's Friend.

There is a general prevailing opinion among farmers that cut worms make horse flies. This is erroneous. Cut worms and army worms are sometimes parasitized by large tachinid flies which, to the casual observer, somewhat resemble the horse fly. The tachinid fly is a beneficial insect and is one of nature's means of controlling the army and cut worms.

Autos for Cuba.

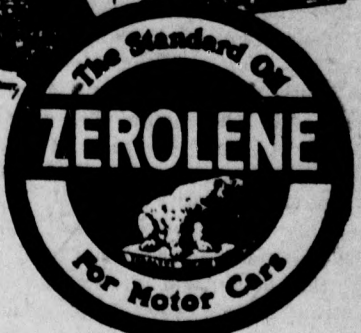

The United States has shipped to Cuba in the past few years 13,045 passenger automobiles and 1,438 commercial vehicles, or one for every 190 persons.

Seeing Life in the Army.

An English soldier who had enlisted in London for two years' service mournfully described his duty as being "to ride a funeral par." Further explanations showed that his time was spent in driving the gun carriage horses at military funerals in London—soldiers, ex-soldiers, veterans, hospital cases, and so on. And he sadly added that the advertisements said, "Join the army and see the world. It's a man's life!"

Quality and economy

A grade for each type of engine

You gain an advantage in the resources, experience, knowledge and equipment of the Standard Oil Company, which combine to make Zerolene. They insure a uniform product of quality. They create an efficiency in the manufacture of fine lubricants hard to duplicate elsewhere in the world.

Our Board of Lubrication Engineers has determined the correct consistency of Zerolene for your car. Their recommendations are available for you in the Zerolene Correct Lubrication Charts. Get one for your car at your dealer's or our nearest station. Use Zerolene for Correct Lubrication.

For Tractors

There is a correct grade of Zerolene for your tractor. Get our booklet on its Correct Lubrication. Ask our Agent for a copy.

SOCIETY

ROYAL WELCOME HOME FOR BRIDE AND GROOM—

A telegram to W. L. Brown of the firm of Johnson & Brown, Saturday announced that Mr. and Mrs. Harry Plum would arrive here from Atlanta, Georgia, via the Santa Fe, and as a result of that telegram Mr. and Mrs. Plum made a triumphal entry into the city.

Probably the most surprised member of the party was Mrs. Plum, for when the bride and groom stepped from the train, they were greeted by Upland's entire Volunteer Fire Department, fire truck, sirens and all.

A parade up Second avenue from the Santa Fe was staged, the crowd along the business street shouting a hearty welcome to the newly-weds as they were taken to their new home here.

Mr. Plum and Miss Adelaide Hall, daughter of Mrs. Thos. Hall, were married at Atlanta, Georgia, on Saturday, March 20th.

FRANCES PAUL GIRLS IN REGULAR MEETING—

The Frances Paul Girls had their usual business meeting last night at the Frances Paul rooms in the Presbyterian church, which was followed by a musical evening. Mrs. J. L. Grahame and Miss Elizabeth Jones were hostesses and over twenty members were present. A pleasing vocal solo by Mrs. Walter Duncan was very much enjoyed and Miss Winifred Moore's piano selections were listened to with the usual appreciation her playing always brings. The Victrola contributed to the evening's entertainment too, and the affair was thoroughly enjoyed by every one.

A skit put on by Miss Louise Jones and Miss Marion Maurer was the feature of the evening and received great applause. Miss Jones presided at the piano and Miss Maurer in costume appropriate to the character she represented acted with sparkling vivacity and the little playlet caused much laughter and fun.

DELIGHTFUL BIRTHDAY SURPRISE PARTY—

Mrs. H. A. Eymann was delightfully surprised on Saturday, at the home of her sister, Mrs. F. C. Thomas, the occasion being Mrs. Eymann's sixty-seventh birthday. A lovely white birthday cake decorated with pink candles was the main attraction. Refreshments of ice cream and cake were served by Miss Irma Thomas. Those present were Mrs. H. A. Eymann, Mrs. Daniel Ruth, Mrs. C. C. Eymann, Misses Elizabeth and Meta Ruth, Mrs. Harry Ledig, Miss Ada and Leah Schwan of Los Angeles, Mrs. Eymann, Miss Minnie Schmidt, Miss Opal Miller, Constance Yvonne Ledig, Mrs. L. R. Harris and Margaret Louise Harris.

ANNUAL MEETING OF THE EDITH CAVELL CHAPTER—

The annual business meeting of the Edith Cavell Chapter has been postponed from April 8th to Friday, April 16th. There will be an all-day session which will be held at the current events rooms in Ontario at which members of the Los Angeles chapters will be present as the guests of the local chapter. Luncheon will be served at one o'clock, the business meeting commencing at two-thirty.

MITCHELL-HARKLESS WEDDING—

A very pretty marriage was solemnized on Easter Sunday afternoon, April 4th, when Annie Jesslyn Mitchell, daughter of Mr. and Mrs. J. D. Mitchell, became the bride of Mr. Arthur Earl Harkless. The Rev. R. C. Stone was the officiating clergyman, and the ceremony took place at the home of the bride's parents on Third avenue, Ontario.

The bride looked very charming in a gown of pink organdie; she wore a wreath of orange blossoms and carried a shower bouquet of sweet peas. Miss Annie Glennie, cousin of the bride, acted as bridesmaid and was becomingly gowned in Georgette, her bouquet being a lovely one of Ophar roses. Mr. Arthur Hardy of Toronto, Canada, was best man, and the Misses Bernice and Eileen Johnson of Santa Ana, cousins of the bride, were the dainty flower girls.

The wedding march was played by Miss Mae Mitchell, sister of the bride.

Mr. and Mrs. Harkless left immediately following the ceremony for Los Angeles where they will make their future home.

POMONA COLLEGE TEACHERS' ENGAGEMENT ANNOUNCED—

A betrothal announcement of especial interest in Pomona College circles was revealed Saturday afternoon to a company of close friends of the bride-elect—when Miss Laura Charlton Squire, head of the college department of physical education for women, made known her engagement to George S. Burgess, assistant professor of political economy.

Miss Squire, daughter of Mr. and Mrs. Edward Squire, 248 West Seventh street, is a graduate of Pomona College, class of '08, and Mr. Burgess, who has been a member of the Pomona College faculty for the past two years, is a graduate of the University of Michigan and of the Michigan Law School. Last year Miss Squire was on leave of absence in France, where she did recreational

work under the Y. W. C. A. in Paris, and upon her return from overseas resumed her position at the head of the college department of physical education for women.

The party given by Miss Squire Saturday afternoon was ostensibly in honor of Miss Alice B. Carter, instructor in physical education at Pomona High School, but whose home is in Claremont. Miss Squire and Miss Carter became acquainted while taking graduate work at Wellesley College and it was to renew the friendship of their days together in the eastern college that the informal affair was planned by Miss Squire, who took this occasion to reveal her engagement.

The announcement came with the serving of the refreshments, when the guests found cards bearing the initials of Miss Squire and Mr. Burgess hidden under the bon bons. No plans for the wedding day have yet been made.

The guest list included the names of Miss Alice B. Carter, Mrs. Frank Ford, formerly Miss Margaret Metcalf, Miss Jessie Parsons, Mrs. Harry Belcher, Mrs. Walter Parsons, Miss Grace Thomas, Miss Marion Ewing, Misses Olive and Orra Mahon, Mrs. Jesse Hough, Mrs. J. D. Johnson, Mrs. Claude Payne, Miss Virginia Dearborn, Miss Mabel West, Miss Edith Hitchcock, Miss Louise Billings, Miss Helen Bartle, Mrs. E. E. Jones, Miss Winifred Goodrich, and Mrs. H. H. Warner of South Pasadena.

FAREWELL RECEPTION TO MR. AND MRS. MANN—

The Guild Women of St. Mark's Parish will hold open house next Friday evening at the home of Mr. and Mrs. Egbert Clark on Euclid avenue and Eleventh street as a complimentary farewell to Mr. and Mrs. B. B. Mann of Ontario. Every effort will be made by the Guild to let all members and friends of the parish know of the reception, as it is hoped every one will come. If those who would like to be present do not get a more personal invitation the Guild hopes they will accept this one and come at eight o'clock to the hospitable residence of Mr. and Mrs. Clark next Friday evening to greet Mr. and Mrs. B. B. Mann.

Pass the Word On.

"Read this to the man who cannot read English," is the request of the Tappan Zoo high school, Piermont, N. Y., at the beginning and close of the handbills calling attention to the night schools. The bill calls the attention of the alien adult to the proper place where he can learn what is meant by liberty; his rights, privileges and duties; about his government and how to secure his citizenship. The school is open to both men and women.

New Use for Old Tires.

A Hutchinson motor tire dealer has half-soled his shoes with strips from a highly guaranteed tire in which he deals, figuring that if the tires are guaranteed good for 8,000 miles under a car weighing a ton the mileage under his own 140 pounds ought to be practically unlimited.—Kansas City Star.

Remarkable!

An amorous young man met a mathematical maid at the Christmas dance. He was as keen on flirtations as she was on problems, and he asked her, in the conservatory, to tell him her age. "How old am I?" replied the girl. "Well, when I am as old as I will be when she is twice as old as I then was I will be twice as old as I now am." The young man, eager to please, looked at her in polite astonishment and exclaimed: "Never!"

LADEN WITH SPOILS OF WAR

Chinaman Who Worked With Allied Forces in France a Wonderful Sight When He Returns.

Pick and spade heroes of the Chinese republic, who soldiered so hard in France for an allied victory, are returning to the homeland with the choice pickings of the salvage piles of Europe on their backs. The Home Sector gives this picture of the returning coolie sports: "There are two obvious signs which make it plain that great things are stirring in these hitherto unstirred parts. One of them literally smites the eye as soon as the returned warrior steps down the gangplank of the coolie transport at Tsingtau or Shanghai. Dizzily arrayed in the sartorial pickings of all the earth, they are a fearsome wonder to behold. American overseas caps and Scottish kilts, French shoes, swagger sticks, a chasseur hat set rakishly on the ear and a bird cage in hand in the manner of the native tea-house, sometimes even a Sam Brown belt—it is a wild cubist mélange of the customary and appearances of all the world and all times.

"The little children run before them in terror, the aged resign themselves to the coming of the long-forboded evil spirits wreaking vengeance for the loss left to go out before the village god."

WHY SIGN BEFORE YOU READ?

Too Many Seem Pleased to Affix Their Signatures to Anything Put Before Them.

Judge Albion T. Wright said at a lawyers' banquet in Cincinnati: "Sign here, please." Gentlemen, it's astonishing how these three simple words hypnotize thousands of people, causing them to affix their signatures to contracts and agreements that they will regret all their lives.

"I signed the paper without reading it," a witness said to me one day. "Mr. Blank told me what its contents were and I, naturally, thought that I could trust him."

"Yes," said I, "but you should have remembered that when a person asks you to sign something he, for his part, doesn't trust your word—he insists on having it in black and white. Well, then, why should you take his word when he won't take yours?"

What the Sun Gives Us.

The cost of light per ounce has recently been worked out by Dr. Charles Davidson of Greenwich observatory, says London Tit-Bits. It takes an appalling amount of light to weigh an ounce, he says, and the cost, as supplied by gas and electric light companies, works out at something like \$10,000,000.

The sun showers down on us 180 tons of this valuable stuff every day, says the doctor, yet we often neglect this free gift and prefer to pay \$10,000,000 an ounce for a very much inferior quality.

If the sun charged us for his magnificent light at the same rate as the gas and electric light companies, we should have to pay \$27,244,000,000,000 a day, or about 23,000 million pounds a year; but the sun does not charge—he gives it to us all without money and without price.

Making Study of Genetics.

In order to learn more about inheritance in cattle and other animals, information is wanted by L. J. Cole, of the genetics department of the Wisconsin college of agriculture, about the similarity of the duplicate parts of double monsters, such as double-headed calves, or calves with one head and two bodies. This will help in a study of twinning and other related phenomena.

This information can best be obtained, says Mr. Cole, from specimens with white markings, where a comparison can be made of the extent and shape of the two parts. These records are often mounted or preserved and the genetics department would appreciate information as to where photographs or sketches can be obtained. This material will help toward an understanding of some problems in inheritance in cattle and other animals.

Caught on the First Bounce

By S. M. GREENE

Helen Taft, who is the temporary president of Bryn Mawr College for Women, said at the League of the Southwest convention in Los Angeles the youngest president of a college in the country, as had been reported, but she was probably the youngest acting-president. And she was careful not to put the hyphen between "youngest" and "acting."

A Hemet correspondent advises the people who are agitated over roosters crowing so early in the morning, to go to bed with the chickens, so they will have enough sleep by the time the roosters begin to worry the neighborhood. That would be one way to solve the complaint—arrange everything to suit the convenience of the noisy old roosters. But we doubt if even trying to be a chicken would keep a fellow from being worried by the early crowing of the roosters. We have a suspicion that the hens themselves, if ever consulted by the roosters—which doubtless they are not—would prefer to choose an hour or two longer on the perch if the rangy old hats would keep quiet long enough to let them. The hens do most of the work during the day, lay the eggs, raise the families, and yet the roosters, just like many men, do most of the strutting and bragging, and assert their self-assumed authority by routing out all the other members of the tribe long before daylight just because they themselves haven't done enough work during the day to need a full night's sleep. If the hens ever get their heads together they will do like their human sisters and organize suffrage and hens' rights societies, and then they will pass a barnyard ordinance against crowing before 6:30 a. m., and the whole chicken family, as well as the human family, will be happier as a result. It was always a temptation to us as a boy to swat a rooster on the back with a green apple or a clod just as he was in the midst of a heavy, gurgling crow and we have always felt something of the same feeling when we hear a man strut and crow about himself, like a rooster. Maybe their crowing is necessary to help keep up the average of egotism and selfishness in the breed, but why they should be permitted to indulge it in the morning when sensible and hardworking chickens and people want to sleep, is beyond us. We are agn it, and will favor any scheme that will stop it.

A Los Angeles councilman and a visiting friend got lost in the snow while taking a day's outing. A girl fell 300 feet over a cliff and it is in a snow bank and was unhurt. A South Pasadena boy had his left eye nearly put out by being hit with a snowball. Sounds pretty eastern for California in April, doesn't it? And it all happened within a few miles of Los Angeles only last week.

Any town that didn't have a hill big enough to have an Easter sunrise service on this year, was certainly out of style. If the craze spreads, special hills may have to be built to rent to towns that live on the flat lands, for use on Easter morning.

The Anaheim Herald publishes a kick from a brother back in Burlington, Iowa, who emits a wall because of the high prices charged tourists in Southern California this winter. He predicts that hereafter the tourists will go elsewhere. We sympathize with the brother, but not enough to believe his prediction about the tourists not coming back to California next winter. For when they get home this spring and find the profiteers gouging them just the same there, and when next winter comes and they find the mercury trying to kick the bottom out of the thermometer in the same old way, they'll forget about everything but the smell of the orange groves, and the smooth boulevards leading everywhere, and the beautiful towns, and the beaches and the mountains, and the—but what's the use? They'll be back.

The Presbyterians at Monrovia are to build a \$95,000 church, with a hall for motion pictures, community plays, banquet rooms, a tennis court on the roof, a nursery where tired mothers can leave their children during church services, etc. It will all be so pleasant and enjoyable that some of the old timers will never believe there is any religion in it.

A Monrovia man dreamed one night that 400 automobiles went past his house at the same time. It might have been only a motorcycle passing in the night, however.

The newspaper men of Southern California will be guests on a trip over the Rim of the World, above San Bernardino, early in June this year. The newspaper men have been on the ragged edge so often that this trip will have no new thrills for them.

Among the notable moves of the past week is Mr. Dewey Burden moving from Compton to Imperial, where even a resemblance to rain will be welcomed, and Mr. Beer moving from

Long Beach to Redlands, just when the dry summer season is opening at the beaches.

Annette Kellerman had her figure insured for \$250,000, so her press agent says. She probably figures that even if she loses her shape and gets the insurance, she will still have a handsome figure.

A South Pasadena woman sued her neighbor because the roots of one of his trees extended into her yard. That's going down pretty low to find the root of a quarrel.

A wealthy banker's daughter eloped with a bell boy from a Paso Robles hotel the other day. It will probably take all her money to keep him in the style to which he has been accustomed.

Paso Robles noticed a quiet, restful feeling in the air one day recently, but didn't know what it was till afterward, when it was learned that most of the real estate men were out of town that day at a convention.

Mrs. Trunk of Altadena was badly bruised in the upper part of her body in an auto accident the other day. That's it; you thought of the same thing that we were going to say about it.

A Pasadena man has invented perths similar to those used in Pullman cars, to be used as sleeping quarters in homes, to save room. Unless his device is six inches too short to sleep in, too hot and stuffy to breathe in, too crowded to undress or dress in, too public to be modest in, and too rough and rolling to get any rest in, it won't seem like the real thing. And then, how can he substitute anything that will take the place of the sweaty porter and the morning tip to take the place of the wages that the Pullman Company won't pay him? It just can't be done, that's all. If it doesn't include all of the above horrors it will seem too much like home, and will never sell.

One problem that ought to be settled by the electric light men when they hold their annual convention in Pasadena next month, is who really built the arc.

The men of the Methodist church at Anaheim held a clean-up bee at the church one afternoon recently, cleaning off all the weeds in the church yard while the ladies kept them refreshed with sandwiches and innocent drinks. The motto of the preacher was, "Hoe every acre that isareth."

The Santa Fe shops at San Bernardino are building a machine that will run on the railroad tracks and kill the weeds on the right of way by scorching them with super-heated steam. The men of the Methodist church at Anaheim used ordinary hoses to clean the church yard weeds, because few churches ever get up enough steam to have any left over what is needed to keep the preacher going.

At the high school at Orange, educational films showing various citrus pests will be shown to students. Pictures of autoists who stop and help themselves to oranges from groves along the boulevards should be included in the exhibit.

Another pre-nuptial shower was held at Glendale last week. The matrimonial precipitation is rapidly approaching last season's total, which ought to insure good crops for the coming year.

The old tower on the high school building at Alhambra is being torn down, because it weighs nearly 27,000 pounds, which is considered too heavy a weight for the building to hold up in addition to the heavy courses of study carried there.

The men will soon be up against it in a new way. Hair cuts are going from 50 to 75 cents, they say. And it won't be any cheaper to let our hair grow, as hair ribbons have gone up fearfully in price also.

450,000 more fish of various kinds have been planted in the streams of Ventura county. If carefully nurtured, there ought to be at least a couple of hundred there when they get big enough to catch.

A man at Santa Barbara died at a ripe old age. It is reported. And over at South Pasadena a man died at a green old age. And they were about the same age. So what does the qualifying adjective indicate? Condition for use in the future life, or what?

The Chino Canning Company was fined in federal court for shipping some canned tomatoes to Kansas City under the wrong grade label. The chap responsible for the mistake was probably canned under the right label later.

The national convention of electric light men will be held in Pasadena in May. To be consistent it ought to be held at Watts.

A lady at Ontario has sued the Pacific Electric Railway because the car on which she was riding was stopped too suddenly when she asked to be let off at D street in Colton, and she was precipitated to the street against her will and previous intention. She probably would have thought it was D-street all right if she had been a Dan.

This Is Coffee Week

We have have Coffee to please every taste. Ranging in price from FORTY cents to SIXTY cents per pound.

ACME QUALITY HOUSE PAINT

Look at the eaves of your house, therearound the rain-spout—look at those shutters and window-sills. They should be protected at once by Acme Quality House Paint.

It is cheaper to paint than to repair.

Save the surface and you save all. Decay starts at the surface. So should protection. You insure your house against fire. What about decay? Take out a little paint insurance.

Have your painter provide you with Acme Quality paint insurance. He can get it for you here.

LOCAL ITEMS

Mrs. R. C. Norton and her three daughters spent Monday in Los Angeles.

Mr. and Mrs. G. B. Bower had as their guests last week the Rev. and Mrs. S. B. Woolpert, of Alhambra.

Splendid line of Easter goods just arrived. Call at Orange Belt Confectionery for your Easter eggs. 614

Mrs. O. P. Brady who has been spending the last two weeks at Long Beach, returned home last Friday after a very pleasant holiday.

Egbert Clarke, Willard Griffith, A. H. Thayer and Don Palmer all left on Sunday for Stanford to resume their studies after a week's vacation at their different homes here.

The Misses Ada and Leah Schwan of Los Angeles were weekend guests at the home of Mrs. F. C. Thomas. Mr. A. H. Schwan came out from Los Angeles to spend Sunday there also.

Colonel and Mrs. Wallace Taylor moved last week into the house formerly occupied by T. J. Cromer on West Eleventh street, their house on Wilson avenue being rented by Mr. and Mrs. Chester Clewett.

Mr. and Mrs. J. M. Webster and son Rob motored from Alhambra to attend the Easter services at St. Mark's on Sunday. It was a great pleasure to their friends to see them again and to have Mr. Webster in his old place in St. Mark's choir.

Mrs. L. W. Feenan and daughter, Miss Mary E. Feenan, who is a teacher in the intermediate Boyle Heights School, Los Angeles, were house guests of Mrs. J. A. Young in Ontario last week. They were all visitors to Upland on Friday, meeting many old friends.

Mr. and Mrs. Glenn Atwood returned last Thursday from a month's visit in the East. They spent some time with relatives in Tingley and Mount Ayr, Iowa, and then went to Chicago, but had the good luck to leave for sunny California the day before the big blizzard struck that city.

Mr. and Mrs. R. A. Bradford, accompanied by Mrs. Edwards and daughter, motored from Los Angeles and spent Sunday with Mr. Bradford's sister, Mrs. Margaret Osborne. Later the visitors drove to Alta Loma where the Bradfords have a summer home and where they will stay for a few days.

The M. F. Palmer house on East Ninth street, purchased some months ago by Mr. Deets of St. Paul, Minn., has just been bought by R. F. Kenyon, who will have it repainted and some changes made in the interior before moving in. It will perhaps be a couple of months before the house will be ready for the new owners.

F. C. Pittingell, manager of the Colonial Theatre, and B. W. Spencer, of Ontario, have recently bought the gas and oil filling station on West A street, Ontario, from J. T. Gullock, and will give the best possible service to all who come to them. Old Baldy Service Station is to be the new name of the place and the exact location is Fern avenue and A street.

WILSON'S BRAINSTORMS

A man may be regular in his habits, even if they are bad.

The Complete Men's Furnisher UPLAND CALIFORNIA

Miss Theresa Robinson spent the week-end in Los Angeles, the guest of friends.

Mrs. Vera Carpenter was a weekend visitor to Los Angeles, the guest of friends while in the city.

Miss Winifred Moore spent Saturday in Los Angeles, making the trip in over the P. E. lines.

Mrs. Wheeler, a former resident of Cucamonga, but now of Los Angeles, was a guest of Mrs. Alice Erickson for a few days last week.

The G. A. Hanson Fruit Co. has a quantity of Cotton Seed Manure; also Sheep. See us before placing your order. This is extra good value. 642

Friends of Miss Elma Schowalter will be pleased to hear that she is enjoying her new home and feeling better than she has for some time while here in Upland.

Mr. B. A. Ruth of Brawley spent Saturday and Sunday at the home of his parents, Mr. and Mrs. Daniel Ruth, on Ninth avenue. Mr. Ruth is with the State Highway Commission as engineer.

Mr. and Mrs. C. M. Sikes went to Murietta Springs last Sunday for a week's stay hoping to benefit Mr. Sikes, who has been having a strenuous time with his knee which he hurt some weeks ago.

Miss Turner arrived yesterday from Pasadena to be the guest of Miss Harwood for the next two weeks. Miss Turner's home is in Massachusetts, but she has spent several winters in California and is delighted with the climate of this part of the Union.

Mr. and Mrs. Daniel Ruth had as dinner guests on Easter Sunday, Mrs. Alfred Hallett, Elton and Glenda Mae Hallett, Dr. and Mrs. G. D. Ruth, Kathryn Ann and Alice Ruth, Dr. and Mrs. E. S. Ruth, Virginia and Peggy Ruth of Los Angeles, and Mr. B. A. Ruth of Brawley.

Mr. and Mrs. A. J. Ruth, Dorothy, Elvira, Marvin and Helen Ruth, Mr. and Mrs. W. R. Goetz, Willard and Richard Goetz of Los Angeles, and Mr. and Mrs. L. L. Harms and Margaret Louise Harms were dinner guests on Easter Sunday at the home of Mrs. H. A. Eymann on Washington Boulevard.

A party of Upland people motored to Riverside to attend the early services on Mount Rubidoux on Easter Sunday, among them being Mr. and Mrs. Earl Hawthorne, Mr. and Mrs. H. V. Cavers, Mr. and Mrs. R. Crossman, and house guests of Mr. and Mrs. Hawthorne who were Mr. and Mrs. T. Loggahan, Mrs. Florence Collier, Mrs. Fritz Knight and Mrs. Mabel Larson, all of Los Angeles.

A merry party composed of Mrs. Nell Middleton, Mrs. D. Moore, Mrs. Fred Weller, Betty Nell and Arthur Weller, of Hollywood, Miss Winifred Bullock and Mr. Earle Strohl of Los Angeles, Mr. and Mrs. Ira P. Russell and Mr. and Mrs. C. C. Eymann enjoyed a picnic lunch at Cajon Pass on Sunday. In the afternoon they drove to the summit and all report a lovely trip.

A Christian Endeavor and Sunday School convention of the Mennonite churches of California was held Sunday and Monday at the Who-so-ever will Mission Church in Los Angeles. The convention was well attended by delegates from the Reedley, Paso Robles and Upland churches, besides visitors from the East and North. The future program for the C. E. and S. S. work for the following years were discussed and many new problems and questions were decided upon.

The scores at the shooting tournament at the Los Angeles Gun Club on Sunday broke the record for ties, the total shooters numbering eighteen, all breaking the fifty straight in special event. In drawing for the trophy P. O. Long of our own home town was the lucky one bringing back half a dozen silver knives and forks of the 1847 Rogers make. Secretary Teeple declared that the shooting last Sunday was by far the best ever taking place there during a club day contest.

Mr. and Mrs. L. G. Jellison of Williston, North Dakota, have purchased the house and property on West Eighth street belonging to Mrs. S. E. Couch, who plans to leave early next month for a visit to friends in the East. Mr. and Mrs. Jellison have spent the winter here and have decided to make their home in this part of California. They will take immediate possession and Mrs. Couch and her sister, Miss Carson, will spend this month at the beaches.

Mr. and Mrs. H. A. Taylor and three sons leave today for Madison, Wis., where they will spend the summer. They purchased the Wright property on West Eighth street last winter and came out from Wisconsin in a terrific snow storm. They are going back to dispose of what will not be needed in California and will make their permanent home in Upland on their return next fall. Mr. and Mrs. H. C. Noyes who have been visiting the Taylors for the past six weeks go to San Francisco in a few days where they will visit their son before going to their home in Madison. Mr. and Mrs. Noyes hope to come to California for the winter next year. They are pleased with both Upland climate and the kindly hospitality of the people and have made many friends who wish them a speedy return.

G. B. Bower and J. J. Williams both made business trips to Los Angeles yesterday.

Hollis P. Allen of Pasadena is the guest of his uncle and aunt, Mr. and Mrs. F. H. Manker, this week.

Mr. and Mrs. Bert C. Nichols have bought the Charles Frankish house on San Antonio Heights and are now comfortably settled there.

Mr. and Mrs. W. B. Stewart, Miss Agnes Stewart and Miss Bertha Palmer are spending today in the city, motoring in the Stewart car.

The fire department was called this morning to a small fire in the Mexican settlement near Washington boulevard, but the blaze was speedily put out and no damage done.

The G. A. Hanson Fruit Co. has a quantity of Cotton Seed Manure; also Sheep. See us before placing your order. This is extra good value. 642

Mrs. Belle Bird, at one time a compositor in the News office, called at the News office the other day and was a most welcome visitor. Mrs. Bird was a guest here of her sister, Mrs. E. P. Chaffee.

Mrs. Mary Lathrop and son, who have been visiting Mrs. Erickson this winter, left last Saturday for Salt Lake City where they will spend some weeks with Mrs. Lathrop's married son before returning to their home in Kansas.

Among those who enjoyed the sunrise services at Mt. Rubidoux on Easter morning were Miss Anna Wilson, Mr. B. A. Ruth, Miss Meta Ruth, Dr. and Mrs. G. D. Ruth, Misses Dorothy and Miss Elvira Ruth, all motoring over in the Ruth Empire.

Mr. and Mrs. Bert C. Schilling, of Green Bay, Wis., arrived last week and are the guests of Mrs. Schilling's parents, Mr. and Mrs. W. L. Brown. Mr. Schilling will be here for the next month, but Mrs. Schilling plans to stay through the early summer.

Arthur Pehl who graduated from Stanford University this quarter, is spending a few weeks with his parents, Mr. and Mrs. N. G. Pehl, of First avenue. Mrs. Pehl is recovering from an attack of flu and is able to be among her friends again.

Mrs. F. H. Manker attended a meeting of the Southern California librarians at the Hall of Records last Monday in Los Angeles. Dr. Hill of the Brooklyn library addressed the meeting, his subject being "The Enlarged Program of the American Library Association."

Mr. and Mrs. Lester Jones and family left last Sunday for their home in Moravia, Iowa, on receipt of a telegram announcing the serious illness of Mr. Jones' father. Their stay will be indefinite, but their many friends in Upland hope they will return here soon.

Mr. and Mrs. Ray Cromer of Brawley spent the week-end with their parents, Mr. and Mrs. E. A. Cooley, and Mr. and Mrs. T. J. Cromer. Their holiday was very short. Mr. Cromer is on the high school faculty and had to be in Brawley the beginning of the week to resume his duties at the school.

Dr. and Mrs. George D. Russell left last week on their homeward trip to Massena, New York. They will stop in San Francisco, Portland, also in Minneapolis, to visit their son. They are planning to return to Upland in the fall and may make this their future home. Dr. Russell is a brother of Mr. Ira P. Russell.

Mr. and Mrs. W. A. Eastlack had as their guests last Sunday their son, Willis, and daughter, Margaret, of Los Angeles, who came to bring home Mrs. Willis Eastlack who had been a visitor here the past week. Dr. and Mrs. Syers and Mr. and Mrs. W. C. Eastlack motored out from the city in the afternoon and were dinner guests at the Eastlack home on First avenue.

Mr. and Mrs. Sutton and their daughter, Miss Josephine Sutton, who have been spending several months in California and have been most of the time the guests of Mrs. Sutton's sister and brother-in-law, Mr. and Mrs. S. S. Genung, at their new home on Mountain avenue, leave next Thursday for their home in Tulare, Iowa. The Suttons spent the week-end with relatives at Van Nuys, returning to Upland last night.

Thursday evening Mr. and Mrs. G. A. Hanson are entertaining in honor of Mr. and Mrs. B. B. Mann of Ontario, who leave next week to make their home in San Pedro. The guests are the past and present vestrymen of St. Mark's Parish all of whom have been associated with Mr. Mann in church work for many years. Mr. Mann is the junior warden and treasurer of the Vestry which offices he has held since the inception of the Parish twelve years ago.

A jolly hike was taken last Saturday by some of the Camp Fire Girls and their friends up San Antonio Canyon as far as Hogsback, when they turned off the beaten trail and went up Barrett's Canyon to the old gold mine. Lunch was enjoyed by the rushing stream and many ferns and wooded greenery brought down to the valley homes. Those who went on the hike were Miss Harwood, Mrs. Leahy, Miss Marion Jenkins, Miss Jean Schnitzer, Miss Lena Leahy and Miss Madeline Fulton.

Mrs. Chas. Ready and son of Ventura were guests of Mrs. Westland over Sunday.

Mr. and Mrs. T. D. Maxwell are enjoying a visit from Mr. Maxwell's parents who have arrived from Iowa for a stay in California of several weeks.

Mr. and Mrs. Charles Turner who have been wintering in California and visiting Mrs. Turner's parents, Mr. and Mrs. J. C. Landgraf, at their ranch home on West Seventeenth street, left over the Santa Fe yesterday for their home in Wisconsin.

Upland Lodge, No. 419, F. and A. M., held their monthly business meeting in their lodge room last evening with a good attendance. Three new members were received into the lodge, two by application and one by transfer. Tomorrow evening the first degree will be conferred and all visiting Masons are cordially invited to be present.

A party of fishermen went out to fish last night and came home in the early hours of the morning after a good evening's sport. Three machines left here at 7 o'clock and drove to Seal Beach where a moonlight fishing expedition was enjoyed until after midnight, when the crowd decided to start for home, as they had a fine supply of fish. Those who went were Mr. and Mrs. Roy Creighton, Mr. and Mrs. Rhoades, Mr. and Mrs. E. R. Bowman, Mr. and Mrs. G. B. Bower, Mr. and Mrs. P. O. Long, and Mr. and Mrs. Charles Schuster.

EASTER SERVICES AT ST. MARK'S
St. Mark's church was most beautifully decorated with lilies, white roses and graceful branches of bridal wreath for Easter Sunday, the chancel and altar being a perfect picture. The christening font had a very artistic arrangement of lilies and ferns and the photograph of the interior taken by Earle Swan just before the service gives a wonderfully true idea of the real scene. The altar hangings of white and gold added to the beauty of the church and the service was one of the most inspiring ever held at St. Mark's.

There was a full choral service and the soloist, Mrs. J. B. Dixon, sang delightfully the song chosen, showing the range of her voice to its highest advantage. To the older members of the congregation the pleasure was great in having their former choir master, Mr. J. M. Webster, with them again, and the whole-hearted response of all the people to the prayers and hymns was proof that the Easter idea was felt by them all.

AMERICAN LEGION NOTES
Harry E. Fish, born April 16th, 1908, is believed to be the youngest member of any post and the Sandwich post of Sandwich, Ill., has the honor of owning him. Fish enlisted in the 129th Infantry in July, 1917, while the recruiting sergeant was not looking. He served with the Thirty-third Division and saw action at the Somme, Amiens, St. Mihiel and Verdun.

The Montana Legionaire, the state Legion publication, is running want ads free for ex-service men and employers wanting to fill jobs with ex-service men.

A sixteen piece band has been organized by the William R. Witly Post No. 37, Saint Peter, Minn., which will participate in all future Post activities.

The American Legion anniversary on March 15th showed a membership of one million and 8475 posts, of which New York claims to have 891 and to be the leading state.

JAYHAWKERS CALLED TO RALLY
All who have ever lived in the Sunflower State are called to meet under the auspices of the Kansas Association of Southern California for the great annual picnic reunion, all day, April 17th, 1920, in Sycamore Grove, Los Angeles. Come as early as you can and spend the day with friends. We will have county registers and headquarters so you can find the old neighbors even with ten thousand present.

There will be a brief program opening about two o'clock, but the main purpose will be to have a good time.

We want to see all the tourists and visitors from the old home. Bring your basket well filled. Coffee will be served free to all who buy the silk souvenir badges. Each one who learns of this is asked to pass the word along.

HAVE YOU PAID YOUR TAXES IN FULL?

Second half of taxes now due, delinquent April 26th. The Tax Collector will be in Judge Crane's office April 7th and 8th.

Defective Eyes

Scientifically corrected. It is beyond our power to restore sight, but we can correct conditions.

FRIENDS URGE HIM TO BE A CANDIDATE

To Messrs. George I. Cochran, Alfred L. Bartlett and Byron C. Hanna: I have been honored by having placed in my hands a petition bearing the signatures of more than a thousand Los Angeles lawyers, requesting that I become a candidate for one of the positions on the Court of Appeal.

This question was first discussed by me with several attorneys. I stated to them that, having occupied the office of Judge of the Superior

Court here for nine years under the observation of the members of the bar, I would not care to seek advancement in judicial office, unless certain that a majority of the members of the local profession wish me to do so.

Frankly, I did not expect so large a proportion of the bar to favor my being a candidate, nor that any one would pay me such compliments as are contained in the request which was presented to me.

It has been been and is my ambition to become one of the Justices of an appellate Court.

My experiences of practically nineteen years as a practicing attorney and Judges of the Superior Court, as well as fifteen years spent principally during the same period as an instructor in various branches of law,

convince me that I possess the ability to perform the work required of such an officer.

More than three-fourths of the bar of Los Angeles City have joined in the request that I become a candidate. I therefore place myself before the voters of the district as a candidate for the office of Associate Justice of the District Court of Appeal and will file a petition during the period provided by law.

The number of those who signed the request is so large that I probably will not be able to communicate with them individually. I take this opportunity to thank each of them. The most genuine proof of appreciation of praise, especially that given a public servant, consists in a genuine effort to be worthy of it. I promise these lawyers, who have

made themselves my sponsors, such an effort.

Sincerely,
GAVIN W. CRAIG.

ASSERT POWER OVER DEATH

Two East Indians Make Extraordinary Claims, Naturally Some-what Hard to Prove.

The dead can be brought to life. This remarkable claim has just been made by a woman doctor of Rangoon (Burma).

She claims to have prepared certain remedies, which are to be taken internally and applied externally for a week, at the end of which any dead person will revive! As may be expected, she keeps her remedies a secret and she will not disclose their ingredients to anybody, writes S. B. Banerjee of Calcutta.

She further claims that the dead person, when revived, will have a new mind and better features. The treatment to be completely successful must be continued for a month or two.

The Burmese doctor has created a sensation in the country. Some are scoffing at her, while others are urging the authorities to test her claims.

In this connection, I may state that some time ago a Hindu doctor made a similar claim and requested me to secure a dead body for him. Now, no Hindu or Mussulman will allow any experiment to be made on the dead body of a near and dear relative. Their religion forbids such experimenting. Soon after the doctor had asked my help, a distinguished Hindu knight, whom I knew, died. I was urged to sound his relatives. I did sound them, but my request was rejected. I approached certain doctors, but they all laughed at me and refused to help me.

The Hindu doctor, I regret to say, will not disclose his mode of treatment. He will not charge anything. He wants to be judged by his results. But who will care to help him?

NOT ALWAYS PACIFIC PEOPLE

Chinese Have Had Great Military Past, But Have Not Fostered the Fighting Spirit.

Writing of the romance of military insignia, Col. Robert E. Wylie doubtless surprised some of his readers in the National Geographic Magazine when he informed them that the first military medal was probably awarded by a Chinese emperor, some 1,900 years ago. The statement falls pat with an article by Mr. T. L. Leo, a Chinese student of the history of his own country, published in Asia magazine, in which Mr. Leo looks back to Chinese military practice, in the early centuries of the Christian era, and shows how the treatise on the "Art of War," written by the ancient Chinese military leader, Sun Wu, corresponded to the maxims of Frederick the Great, which were in turn expressed by von Hindenburg. The military past of China is nowadays very generally overlooked, and the explanation advanced by Mr. Leo is interesting at this period. The Chinese, he says, have never admired the fighting spirit, but "on the contrary, have ever been condemning it, curbing it, and turning it to the dormant."

CARRY OWN WOOD TO SCHOOL

French Children Study Their Lessons in Gold Buildings With Shell-Torn Moles.

Children of Laon, in the devastated Aisne district, have to take their own wood to school. Instead of swinging along merrily, as American children do, with their books under their arms, each thin little youngster staggers along under an armful of wood, shell-shattered tree trunks or bits of timber from trench and dugout. It is the only method of keeping warm in the desolate schoolrooms.

Under the conditions prevailing in schools in northern France, Lincoln's persevering studies by the light of a big log fire cease to be remarkable. The back room of a cafe, the cold interior of a village church with the wind whistling through apertures in the walls made by shells, or perhaps the one remaining room of the former schoolhouse are the places where the French children are studying without books, paper or pencils through the long, cold, dark winters of northern France.

For blackboards the bare walls are used. Charcoal or bits of chalk from the white cliffs of the country must serve as pencils. A few of the more fortunate children have bits of slate from some shattered roof upon which they painfully execute their lessons.—Stars and Stripes.

Tin as a Common Bond

It is not surprising that the United States, where almost every variety of eatable has found its way into tin cans for preservation, should use nearly two-thirds of the total production of tin in the world. But it may be an unexpected discovery to find that the South American country, Bolivia, supplies about one-quarter of the total output. In consequence, Bolivia, a producer, wants to make friends with the tin-using republic to the north, and more so now that the United States has its own smelters to refine the ore, an innovation due to the war. The South American nation hopes to secure a loan for completing the Pan-American railway in order to improve commercial facilities. As long as the canning of fruits and vegetables continues to flourish as it has in the past, in the United States, doubt vanishes as to the close friendship between the second producer and the first consumer of the world's tin.

Oak-Shoot Germany.

The latest German postage stamp shows four young oak-shoots springing from the stump of a dead-and-gone tree, to signify the resurrection of the new Germany from the old. The designer of the stamp evidently overlooked the fact that while shoots may spring from an old stump and flourish in a small way, yet the stump itself never grows into a great tree again. The oak-shoots fill an oval frame or scroll, on which appears the words "Deutsche Nationalversammlung" (German federation). The part within the oval is blue; without, the corners showing the figures of value, are brown.

Clock Problem.

There are 12 steps around the face of the watch, 1, 2, 3, etc. The hour hand makes the circuit once while the minute hand makes it 12 times. It is true that the minute hand makes 11 more steps on the dial than the hour hand does, but it also makes the same step that the hour hand takes, thus making 12 to the hour hand's one.

Not Reducing.

Mrs. Bascom was buying some lard at the meat counter. Her little boy was outside waiting for her. A neighbor lady came by and asked the boy: "Where's your maw?" "She's in th' store gettin' fat,"—Philadelphia Ledger.

His Trouble.

"Jones married a widow with a 10 year old boy."
"I understand the marriage is not a happy one."
"No, it's a case of incompatibility between him and the boy."—Boston Transcript.

They Bake Better

Detroit Jewell Gas Ranges have won the reputation of being the most perfect baking gas ranges manufactured. "Their baking superiority is due to the patented construction of the oven."

Condensation—a fault of most gas ranges—is largely overcome in the Detroit Jewell. The plan of construction retards the heat currents in the top, equalizing the heat so that uniform temperature is maintained in all parts of the oven. Detroit Jewells are distributed by the McCann Hardware Co., of Ontario, and are sold on easy payment plan if desired.

Auto Tops of all kinds, both stationary and extension. Our work is carefully done, not with the extreme cheapness as our objective, but to do a durable job that will please the customers better as it grows older. "You may buy cheaper, but you can't do better."

FOR THE SANITATION OF CAMP CAJON

The first move to install sanitary facilities at Camp Cajon was taken by the board of supervisors when County Surveyor E. T. Ham was requested to prepare an estimate of the cost of caring for sewage at the camping ground.

The Chamber of Commerce of San Bernardino and the Automobile Trades Association petitioned the supervisors to take action in connection with proper sanitation at the camp.

The contract for the moving of the old county bridge on the Foothill Boulevard near the Red Hill, in the Cucamonga section, to the Mill Creek crossing near Forest Home, was on Monday awarded by the supervisors to the Mercereau Bridge Company. It will cost between \$6000 and \$7000 to move and install the bridge. When the state took over the Foothill Boulevard it abandoned the route at the stream which the bridge spanned. It was built 28 years ago.

That the Southern Pacific Company is willing for legislation that would give counties the title to highways which were constructed within the 200 foot right-of-way granted that railroad company many years ago, was stated to the board of supervisors in a letter from the Southern California Automobile Club. Because the grant was for railroad purposes all deeds by the Southern Pacific for the property are invalid. The county highway commissioner and county surveyor will make a survey to determine how many roads in this county are within the property granted the railroad company.

To aid in developing interest in the forest training school at the county hospital a booklet is to be issued for general distribution.

An ordinance regulating and licensing the business of fumigating and spraying fruit and nut trees and vines was repealed. It was adopted in 1909. It conflicts with a state law.

HOW TO MAKE YOUR OLD SUIT LAST

"It is not every man that can afford to wear a shabby coat," Robert Colton once wrote. The words hold as true now as when first written, three-quarters of a century ago. Nevertheless it is useful today to make the old suit last—though not at the expense of becoming tattered.

Between the costliness of clothing at the one extreme, and shabbiness of it at the other, there is a middle ground where economy and good appearance meet. You can find this "middle ground" at your dry cleaner's. He can tune up your old clothes and preserve your new. Every person realizes the business advantage and the social values of clothes well cleaned and neatly pressed, but there is more in these details than improvement of "looks" alone. Ask your tailor or your clothier. He will inform you that apparel frequently pressed, and cleaned at intervals of two or three months, will wear from 25 to 50 per cent longer than clothes that are not so conscientiously cared for.

The old suit will last longer, and your new suit will do double duty if you will more frequently patronize the modern cleaner and the modern presser. Get started on the road to clothes economy by calling on your dry cleaner today.

INCREASES IN SCHOOL COSTS

That it is the duty of the school authorities of every community in the county to demonstrate to the public, as well as the board of supervisors, that a drastic increase in appropriations for school work is absolutely necessary for next year, was the announcement of the supervisors Monday to the appeal of the schools for an assurance there will be a substantial increase in the school tax rate to meet the serious financial situation.

Mrs. Grace C. Stanley, county superintendent of schools; G. H. Jantzen, superintendent of the Colton Schools; and H. C. Clement, superintendent of the Redlands Schools, appeared before the board to discuss the serious situation confronting the schools.

The supervisors, who were sympathetic, informed the school representatives that the increase in the tax rate must be justified in the eyes of the people, and suggested that on next Tuesday that every school district concerned send a delegation to the board of supervisors to take up the situation, and outline a comprehensive statement to the public.

It will be necessary, according to the opinion of the delegation Monday, to increase the county elementary school rate from 40 cents to 50 cents, and the high school rate from 25 cents to 50 cents, making a county school levy of \$1.00 as against 69 cents last year. This will be in addition to the increases in all of the school district levies which have not already reached the limit.

The school authorities believe that the public already thoroughly understands that schools as well as everything else are facing the general increased cost of doing business, and there will be a campaign of education to explain how the new state legislation requiring increased educational facilities under the raising of the age limit for compulsory education, is likewise adding to the cost of maintaining the schools.

Salaries must be increased, Mrs. Stanley told the supervisors.

Baby Chicks Need VARIETY—Give It to Them!

Give your chicks right from the start a variety of materials such as they pick up on range in early summer and they will GROW.

Blatchford's Milk Mash PROVIDES VARIETY

This feed contains 25 ingredients—all carefully ground and mixed in proper proportions—providing a mash so rich in nourishment that baby chicks grow up rapidly and develop too much vitality for white diarrhea, bowel trouble or leg weakness to take hold.

Start and grow your chicks on Blatchford's. By so doing you will raise a bigger percentage of each hatch and your chicks will grow better than on anything else.

Sold in 4-lb. cartons, 25- and 100-lb. bags. Manufactured by the makers of the well-known Blatchford's Calf Meal—Blatchford Calf Meal Company, Waukegan, Ill.

NOTICE OF ELECTION

Notice is hereby given that a general municipal election will be held on the 12th day of April, 1920, for the following offices:

For Board of Trustees: Frank C. Buffington, W. B. Cavers, William Springer, Owen E. Atwood.

For City Clerk: Frank K. Nichols.

The following proposition will be submitted at said election, the question:

Shall the Board of Trustees of the City of Upland be authorized to levy and collect a property tax of \$1.25 on each \$100.00 of the Assessed Valuation of all taxable property within said city?

There will be two voting precincts for the purpose of holding said election, consisting of a consolidation of regular election precincts established for holding the last general State or County election as follows: Consolidated voting precinct "A" comprising State and County precincts numbers 1, 2 and 4, and the polling place thereof shall be the Library Basement on D Street; Consolidated voting precinct "B" comprising State and County precincts numbers 3 and 5, and the polling place thereof shall be the Upland Grammar School on East Tenth Street.

The polls will be open between the hours of 8 a.m. and 4 p.m. FRANK K. NICHOLS, City Clerk. Dated April 2, 1920. 6411

HOW SNOW NOURISHES SOIL

Valuable Manure Because of Its Carbonic Acid, So Necessary for Revitalizing the Earth.

In a handful of snow there might be 20,000 crystals, and no two of them would be alike.

Sleet is snow which, in its passage to the earth, has passed through a layer of warmer air, and become partially melted.

Snow is early or late, according to whether the summer was short and soon over or extended to the autumn. A short, early summer, means that the earth cools more quickly.

Ground which is covered with snow very rarely falls below freezing point, although the air may be fifteen to twenty degrees colder. This is because snow is a very bad conductor of heat—it holds the heat in the ground and stops its radiation.

The reference in the Psalms: "He giveth snow like wool," is not to the fact that snow and wool are alike in appearance, but to the warmth of each.

Snow is warm because air is held in its minute crystal interstices. No heat escapes from anything covered with snow. Snow is, literally, a valuable manure, and nourishes the earth with its carbonic acid, which penetrates slowly into the soil and is thus fully absorbed.

Finally, snow is ruinous to shoe leather, because it warms the leather, opens it, and then penetrates.

DUMB CURED BY SUGGESTION

English Specialist in Nervous Diseases Claims to Have Achieved Some Remarkable Results.

Can a dumb man be made to speak merely by being told that he must speak?

Impossible though it may seem, cures have been effected by this means.

Lieut.-Colonel Sir Frederick Mott, one of the foremost specialists in nervous diseases, claims to have cured several dumb soldiers by suggestion.

Five men who were mutes were sent to him after they had been treated previously, and it had been suggested to them that they were not going to get well. He took the first man into a room and told him that he never left a patient until he had cured him, "even if it took him a couple of hours."

The doctor had recourse to a little salivarium on the man's throat, and asked him to count ten. At first he indicated that he could not, but after coughing his lips began to move. Then he was asked to name the days of the week and sing "God Save the King." Eventually he spoke; and the other four were also cured by this method. —London Tit-Bits.

Pneumatic Chisel.

Loredo Taft, a Chicago sculptor, is stated, has installed in his studio a pneumatic chisel, by means of which the work of outlining marble statues is greatly simplified. The old method of carving with mallet and chisel is not only laborious, but rather awkward for the sculptor, since only one hand is left free to guide the chisel. In the case of the pneumatic chisel both hands may be used for this purpose. The pneumatic chisel is driven by compressed air, at a pressure of 77 pounds per square inch, operating through a flexible tube, the air being compressed in a large tank by means of an electric motor. The air passing through the tube has the effect of driving the chisel back and forth against the stone, just as if it were hit by a mallet. The chisel, of course, is used only to outline the statue roughly, the finishing work all being done by hand.

Twenty States Mined Gold.

Twenty states and the territory of Alaska produced gold in 1919, as shown by the geological survey. The big productions came from the Rocky mountain states and the Pacific coast, but a little gold was mined in New England, a little in the South and a little in the Mississippi valley. Maine, Missouri and South Carolina go in the record by yielding five ounces each. Vermont found ten ounces. Georgia and North Carolina forty-eight ounces. Texas fifty-three ounces and Wyoming fifteen. California led with an output of 840,758 ounces. Colorado came second with 470,900 and Alaska was a close third with 437,131. South Dakota came fourth with 254,820.
